

TriPac® Backflow Preventer Kit

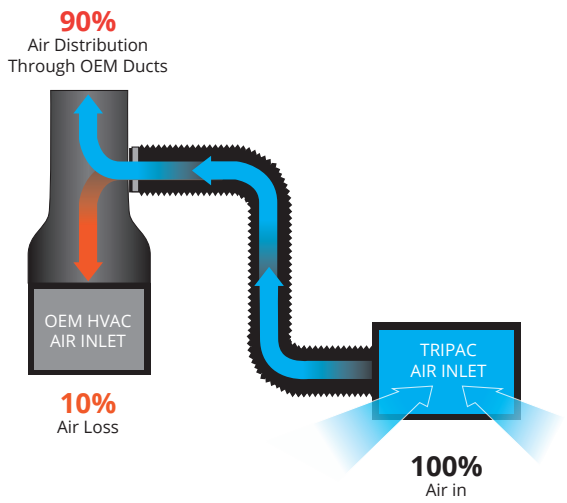

Make your TriPac Auxiliary Power Unit (APU) more effective by reducing lost airflow with this simple kit. Benefits include:

- Increases efficiency of APU by up to 10%
- Better airflow for more driver comfort
- Reduces runtime for less fuel consumption
- Lowers costs for fuel and maintenance
- Prevents coil freeze-ups
- Will work with any APU
- Fits many tractors - ask your Thermo King dealer!

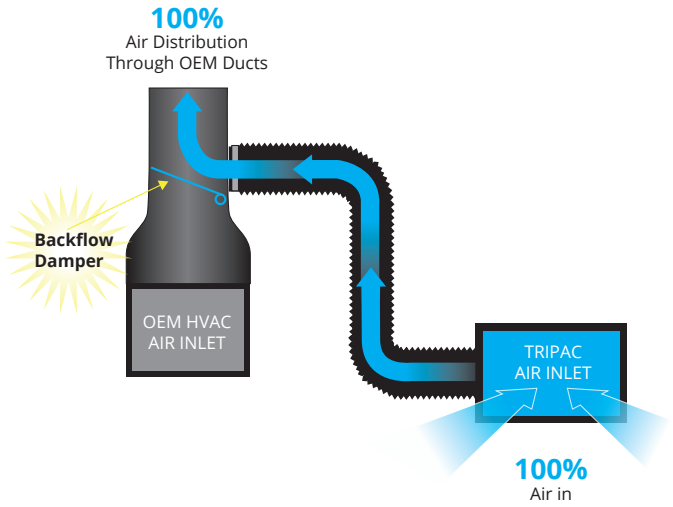

Prevent Air Loss and Increase Efficiency

Don’t waste your cooling power!
